

Class 3rd

Subtraction

Worksheet - 2

Ques 1: Do as directed: **5 Marks**

- Subtract the Smallest four-digit number and 0
- State True or False: $134 - 300 = 200 - 134$
- State True or False: 75 less than 25 is 50
- $22 - \underline{\quad} = 21$
- $\underline{\quad} - 51 = 0$

Ques 2: Subtract the following: **10 Marks**

$\begin{array}{r} 5, \quad 7 \quad 6 \quad 6 \\ - 3, \quad 1 \quad 3 \quad 7 \\ \hline \end{array}$	$\begin{array}{r} 3, \quad 3 \quad 8 \quad 6 \\ - 3, \quad 0 \quad 0 \quad 2 \\ \hline \end{array}$
---	---

$\begin{array}{r} 7, \quad 2 \quad 6 \quad 1 \\ - 3, \quad 1 \quad 1 \quad 1 \\ \hline \end{array}$	$\begin{array}{r} 6, \quad 7 \quad 8 \quad 8 \\ - 4, \quad 1 \quad 5 \quad 6 \\ \hline \end{array}$
---	---

Ques 3: Solve the equation: **10 Marks**

- A train was carrying 800 people. At one station 567 people got down from the train. How many people are left in the train?
- The cost of a television is Rs. 7059 and that of a cycle is Rs. 2369. By how much does the television cost more than the cycle?
- Siya made a journey of 8473 km. Out of this, she covered 4253 km by train and the rest by a car. How many km did she cover by car?
- Miss Luise travelled 2,303 km. Mr. Tarun travelled 2,345. How much farther did Mr Tarun travel than Miss Luise?
