

**Chapter - 5**  
**Worksheet - 2**

Question 1. Which of the following cannot be called a habitat?

- (a) A desert with camels
- (b) A pond with fishes
- (c) A jungle with wild animals
- (d) Cultivated land with grazing cattle

Question 2. Following are some features of plants.

- (i) They lose a lot of water through transpiration.
- (ii) Their leaves are always broad and flat.
- (iii) They lose very little water through transpiration.
- (iv) Their roots grow very deep into the soil.

Which of the combination of above features are typical of desert plants?

- (a) (i) and (ii)
- (b) (ii) and (iv)
- (c) (ii) and (iii)
- (d) (iii) and (iv)

Question 3. An animal having a stream-lined and slippery body. What should be the habitat of the animal?

- (a) Water
- (b) Desert
- (c) Grassland
- (d) Mountain

Question 4. Which of the following are characteristics of living beings?

- (i) Respiration
- (ii) Reproduction

(iii) Adaptation

(iv) Excretion

Choose the correct answer from the options below.

(a) (i), (ii) and (iv) only

(b) (i) and (ii) only

(c) (ii) and (iv) only

(d) (i), (ii), (iii) and (iv)

Question 5. Earthworms breathe through their

(a) skin

(b) gills

(c) lungs

(d) stomata.

Question 6. Which of the following is not an example of response to stimulus?

(a) Watering in mouth when we see delicious food items.

(b) Closing of leaves of Mimosa plant when touched.

(c) Shutting our eyes when an object is suddenly thrown in our direction.

(d) A chick hatching out of an egg.

Question 7. Which of the following is correct for respiration in plants?

(a) Respiration takes place only during day time.

(b) Respiration takes place only during night.

(c) Respiration takes place both during day and night.

(d) Respiration takes place only when plants are not making food.

Question 8.

If you happen to go to a desert, what changes do you expect to observe in the urine you excrete? You would

(i) excrete small amount of urine

(ii) excrete large amount of urine

(iii) excrete concentrated urine

(iv) excrete very dilute urine.

Which of the above would hold true?

(a) (i) and (iii)

(b) (ii) and (iv)

(c) (i) and (iv)

(d) (i) and (ii)

Question 9. Saline water, hot air and sand are \_\_\_\_\_ components of a habitat.

Question 10. The habitat of plants and animals that live \_\_\_\_\_ in is called the aquatic habitat.

Question 11. Why is reproduction important for organisms?

Question 12. Unscramble the given words below to get the correct word using the clues given against them.

Question.13. Distinguish between respiration and breathing?

Question.14. What are the different kinds of habitat?

Question.15. Define terrestrial habitats?

Question.16. List the common characteristics of living things.

Question 17. What are the differences in the desert and sea regions?

Question.18. Explain why speed is important for survival in the grasslands for animals that live there.

Question.19. What do you mean by acclimatisation?

Question.20. Write the difference between living and non-living things.

Question.21. Explain the adaptation of trees to live in mountain regions.
