<u>Chapter – 1</u> <u>RESOURCES</u> Worksheet - 2

Choose the correct option:

1. Non-renewable resources are_____

- (a) those which have limited stock
- (b) made by human beings
- (c) derived from non-living things
- (d) those which we find in markets

2. Which of these is not a resource?

- (a) the Indian Prime Minister
- (b) your Geography book
- (c) a small piece of paper
- (d) none of these

3. Which of these does not have economic worth but is valuable?

- (a) shoes
- (b) mountains
- (c) coal
- (d) none of these

4. The types of resources on basis of stock are

- (a) ubiquitous and localised
- (b) actual and potential
- (c) renewable and non-renewable
- (d) abiotic and biotic

5. Which of the following is a non-renewable resource?

- (a) solar energy
- (b) water
- (c) soil
- (d) natural gas

6. Which of these is an example of sustainable development?

- (a) ignoring the lights when they are switched on but not required
- (b) not wasting paper
- (c) using coal and petroleum deposits at a fast pace

	(d) none of these
7.	Air is a ubiquitous resource since it is found (a) at some places (b) nowhere (c) everywhere (d) none of these
8.	Using resources carefully and giving them time to get renewed is called: (a) resource observation (b) resource intervention (c) resource collaboration (d) resource conservation
	Which of the following statements is true? (a) Soil, rocks and minerals are examples of biotic resources. (b) Resources are classified into natural, human-made and human. (c) On the basis of distribution, a resource can be actual or potential. (d) Solar energy and wind energy are example of potential resource. is found in Ladakh (a) Calcium (b) Uranium (c) barium (d) aluminium
Answ	ver the following Questions.
11	1. Which are the types of resources? Explain each.
12	2. "If we are not careful then even renewable resources can become very scarce and the non-renewable ones can definitely get exhausted." What do we do about it?
13	3. Why are resources distributed unequally over the earth?
14	4. Are human resources important? Why?
15	5. Explain briefly about wind power.
10	6. Think of a few renewable resources and mention how their stock may get affected by overuse.

- 17. Define stock of resources.
- 18. Write a brief note about abiotic resources and natural resources.
- 19. What is the role of utility in making a substance a resource?
- **20.** Differentiate between the following:
- (a) Potential and actual resources
- (b) Ubiquitous and localised resources
